// EDUCATION

Information and Computer Systems Diploma Program

Sept 2022 – September 2024

Camosun College, Victoria, B.C.

- Wrote, edited, and debugged programs in various languages, such as Java, Python and Swift.
- Demonstrated knowledge by creating mobile responsive websites using HTML, CSS, JavaScript, and JavaScript frameworks, such as Next.js with React.
- Created a working API with JavaScript and connected to a front-end React application.
- Deployed applications with Amazon Web Services.
- Created, and managed new databases with SQL and MongoDB.

// TECHNICAL PROJECTS/RELEVANT EXPERIENCE

// Future & In Progress Projects

Setlist Generator - GigPlanr

- Currently developing a web app with Laravel/React to assist music artists in creating setlists for shows. Complete with a database integration, and user registration with authentication and authorization.

Photography Showcase Website

- Plans to develop a dynamic environment to showcase and archiving different types of my photography.

// Past Projects

E-Portfolio Websites

- Created two mobile responsive E-Portfolio websites for myself, showcasing some of my projects. One with HTML/CSS deployed with Firebase, and the other with Next.js, deployed with Vercel.

Mobile-Responsive Band Fan Page

- Created a mobile responsive fan page for my local band "Supreme Remedy".

// EMPOYMENT EXPERIENCE

<u>Shift Supervisor</u>
November 2017 - Present
Starbucks, Victoria, B.C.

- Guided a team daily, navigating though challenges together, resulting in some record-breaking sales for the store.
- Facilitating the onboarding and training of new hires and ensuring proper training requirements and understanding are both met though verifying learning and confidence skills.
- Applied quick problem solving of both customer issues, and business issues as they arise, with minimal impact to operations.

// INTERESTS

- Engineering music recording sessions with bands.
- Writing, and performing music.
- Photography.
- Creating software.
- Reading a good book.
