HIGHLIGHTS OF QUALIFICATIONS

- IT support focused technician with hands-on experience with hardware, Windows, macOS, and Linux environments.
- Strong troubleshooting skills across hardware, operating systems, and networking mediums.
- Experienced in supporting users, resolving technical issues under pressure in a timely manner, and communicating solutions clearly and effectively.
- Technical background in scripting, enabling strong problem-solving skills.
- Proven track record of managing complex technical projects, collaborating in team environments, and maintaining high operational standards.

TECHNICAL SKILLS

- **Systems & Infrastructure:** Proxmox & Windows Server, Docker, Linux (Arch/Ubuntu Server), Active Directory (Users/Groups/Policies).
- **Networking & Connectivity:** TCP/IP, DNS, DHCP, VPN/Remote Access, LAN/WLAN troubleshooting, Firewall fundamentals.
- **IT Support & Operations:** Ticketing Management (Jira), Hardware Diagnostics, PC/Server Provisioning, M365 Administration, Remote Troubleshooting.
- **Tools & Scripting:** Python (Network/Automation), Git/GitHub, Bash, PowerShell (basics).

EDUCATION

Information and Computer Systems Diploma Program

September 2022 – September 2024

Camosun College, Victoria B.C.

- Configured network services (DNS, DHCP, Mail) in Windows and Linux server environments.
- Administered Windows and Linux operating systems, including user accounts, system configuration, permissions and policies, and troubleshooting common problems.
- Performed network troubleshooting and socket-based network programming with Python.
- Demonstrated agile project management, wrote and shared industry standard documentation, teamwork, communication, and ethical responsibility.
- Lead and contributed to a team-based project, using an Agile approach, emphasizing communication, collaboration, and accountability.

TECHNICAL PROJECTS

Future & In Progress Projects

Setlist Generator – GigPlanr

- Developing a full-stack database-driven application. Focus on system architecture, user authentication/authorization, and troubleshooting integration points between front-end, back-end, and database services.

Homelab

- Maintaining a home environment featuring Proxmox virtualization and an OpenMediaVault (OMV) storage array on a separate machine. Managing high-availability services including

Nginx Proxy Manager (Reverse Proxy), Pi-hole (DNS/Network Filtering), and automated monitoring tools.

CraveWave – Meal Randomizer Application (Title TBD)

- Designing and developing a containerized, database-driven web application within my Proxmox/Docker infrastructure. Currently working on front-end interface, and system integration, with upcoming milestones for database design, user authentication, and back-end logic.

Past Projects

E-Portfolio Websites

- Developed two mobile first E-Portfolio websites for myself, showcasing some of my other projects. One with HTML/CSS, deployed with Firebase, and the other with Next.js, deployed through Vercel.

EMPLOYMENT EXPERIENCE

Office Assistant/IT Technician

February 2026 – Present

Computers on Wheels, Victoria B.C.

- Perform custom PC builds including hardware selection & purchasing, procure pre-built systems, fresh operating system installation to remove bloatware, software deployment, and other configuration based on customer needs.
- Provide troubleshooting for diverse technical issues, including OS-level errors, software conflicts, and hardware failures.
- Diagnose and resolve local network connectivity issues, and troubleshoot smartphone device functionality.
- Manage daily business office operations, including accounting tasks, organization, and general administrative requests as required by company needs.

Shift Supervisor

November 2017 – Present

Starbucks Canada, Victoria B.C.

- Leading a small to large team daily in a fast-paced environment, developing strong communication, leadership, and problem-solving skills.
- Facilitating and supporting the onboarding and success of new partners by ensuring procedures and systems are understood and followed.
- Resolving customer and operational issues quickly, maintaining consistent service quality.

INTERESTS

- Writing and performing music.
- Photography.
- Reading a good book.
